Brand New Book ***** Print on Demand *****.Historical fiction meets science fiction-as you ve never read either of them before-in this riveting what if retelling of World War II. Extensively researched at a top-secret British decoding facility, this imaginative story by Bob Ackerman is grounded in facts that make you wonder whether maybe this is the true account, after all. In 1941, American naval officer Jeffry Williams is handpicked to serve at England s Bletchley Park on an Enigma code-breaking team with Colin Henricks and Kerra Dawes. They soon pick up on a series of messages codenamed the Doppelganger Project. Although they can discern how important it is to the Germans, they can t figure out what exactly they re plotting. With the German scientific advancements during the war continuing to amaze Allied forces, the code breakers know it s foolish to underestimate the Nazis. Do they have what it takes to decipher the puzzle-before it topples the Allies in a way no one can fathom? Follow Jeff, Colin, and Kerra as they navigate military intelligence, special assignments, and Nazi monstrosities, all while trying to determine who they can trust in a world clouded by war.
