It is one of my personal favorite publications. Indeed, it actually performs, still an amazing and interesting literature. It has been printed in an exceptionally easy way which is merely soon after I finished reading this book where it really altered me, changed the way I believe.

Heritage Books, United States, 2013. Paperback. Book Condition: New. 208 x 135 mm. Language: English . Brand New Book ***** Print on Demand *****.In the Korean War, the typical young American soldier was not motivated by a desire to save the world from communism; his objective was to earn the thirty-six rotation points that would allow him to return home. *Thirty-Six Points* blends military history and character-driven fiction, as experienced by the novel's four principal characters: a pre-med student from Stanford University, a career soldier from Detroit, a corporal from a Greek battalion fighting alongside the Americans, and a Chinese schoolteacher who was coerced to fight in the Chinese Army alongside the North Koreans. The novel begins in 1950, before the United States became actively involved in the war. It ends with the aftermath of the war, the survivors having returned to their homes. In the epilogue, one of them revisits the basic training base at Fort Ord years later, and compares the Korean and Vietnam eras. Author Samuel Martin Kier, like the protagonist Ben Stewart, was a Stanford student when he was drafted into the army. He trained at Fort Ord and was assigned to the Fifth Infantry Regiment. One of his assignments during his period of service with the unit was to update the regimental history, using information from command reports, battalion journals and after-action reports. *Thirty-six Points* is a novel, but it also tells the story of the Fifth Regimental Combat Team from November 1952 to July 1953, as it moved between the Punchbowl in eastern Korea and the Chorwan Valley in the central part of the country.
