It is fantastic and great. It is written in easy words and phrases instead of confusing. I am just delighted to explain how this is actually the best book I have got read through during my individual life and might be the finest publication for ever.

BANDS AS VIRTUAL ORGANISATIONS: IMPROVING THE PROCESSES OF BAND AND EVENT MANAGEMENT WITH INFORMATION AND COMMUNICATION TECHNOLOGIES (1ST NEW EDITION)

Peter Lang GmbH. Hardback. Book Condition: new. BRAND NEW, Bands as Virtual Organisations: Improving the Processes of Band and Event Management with Information and Communication Technologies (1st New edition), Christine Bauer, Managing a band is a challenge, similar to managing a small or medium-sized enterprise. A type of band particularly difficult to manage is a telephone band that does not have a fixed line-up of musicians. Together, the musicians form a virtual organisation. Every participant in the organisation brings in a certain set of skills, has specific business goals, and has to bear some risks. The major findings include a thorough documentation of activities involved in managing a medium-sized telephone band which are explained in more detail by modelling the processes. Emphasising the use of information and communication technologies, the results provide a chronological sequence of activities that may generally be used for band and event management.
