Reviews

Totally among the best publication I actually have actually go through. It can be filled with wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Glen Ernser)

THE SPACE-TIME ENERGY LEVEL CHANGE POWERED CHRISTMAS TREE LIGHT-SAIL SMORGASBORD. NOTES ON NOVEL LIGHT-SAIL PROPULSION METHODS. ADDENDUM 1. (PAPERBACK)

Createspace, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.This book presents and operator that is meant to be inserted into each linear power term in the now two huge formula sfor which sigma series notion is included and the respective summations are with respect to the letter j or the combination jde. Accordingly, there are thousands of such linear power terms that can be modified. The operator is so generally distributed because each of the self-evident aspects presented in the operator are assumed to augment the propulsive force and power terms considered for the numerous additional propulsion modes modeled by the sigma series with respect to the letter j or the combination jde. Thus, the new propulsion modes featured in this operator are assumed to be at least almost completely active on all portions of the spacecraft. Note that the operator is understood to have context specific magnitudes as may be relevant for various modes of propulsion so augmented and various differential portions of a spacecraft which may be effected differently from other portions by the propulsion methods implied in the operator. The operator is assume to be dimension-less.
