THE GENERAL AND THE GENIUS: GROVES AND OPPENHEIMER THE UNLIKELY PARTNERSHIP THAT

[DOWNLOAD](#)

Regnery History. 1 Cloth(s), 2015. hard. Book Condition: New. The bomb that began the atomic age with a blinding flash in the New Mexico desert in 1945 was the product of a most improbable partnership. Leslie Richard Groves of the Army Corps of Engineers had built the Pentagon in record time and under budget; put in charge of the Manhattan Project, his mission was to beat the Nazis to the atomic bomb. The nation's preeminent theoretical physicist, J. Robert Oppenheimer was a wealthy intellectual and Groves's opposite in nearly every respect. Yet as Los Alamos historian James Kunetka shows in this two-man portrait, the iron-willed general and the visionary scientist were able to jointly lead a brilliant team in the remote top-secret lab. "Having previously written on the subject (1978's *City of Fire* and 1981's *Oppenheimer, Year of Risk*), Kunetka here uses original records and correspondence to produce a fast-paced recounting of the two-and-a-half-year Manhattan Project. Kunetka highlights the unlikeliness of their positive relationship and attributes it to the qualities they shared: both were intelligent, self-aware, patriotic, and capable of prodigious amounts of work. He also simplifies the physics to be understandable to lay readers. This is an entertaining and informative account of a time of great tension, great discovery, and great accomplishment." *Publishers Weekly* 482.
